## Anonymous Investor Plans 'Holland Hotel'

Construction of the first Holland Hotel will begin in the next few weeks and is planned to be completed by Spring 1957. It was learned yesterday at a press conference given by the investor, who asked that his name not be disclosed.

On one of the last undeveloped bits of land in Jerusalem, between the city and the sea, a modern 100-room hotel will be the beginning of a much vaster scheme. The Holland project was conceived by a prominent investor, who is now in Jerusalem to study the tourist market and to plan the hotel.

The British Zionist Federation has an essentially practical approach to the problem of immigration. It is not a political movement, as the Zionists are, but a practical one.

He termed the hotel as a link between the problems of other Zionist movements abroad with those of the Jewish Agency in Israel. The hotel will be a "fundamental and vital link" in the chain of immigration.

The situation in Britain was quite different from that in the U.S. For example, the majority of Jewish leaders in Britain were Zionists. In fact, Mr. Barnett Janney, M.P., was President of the British Zionist Federation and of the Jewish Board of Deputies, where all the leading members are Zionists.

He stated that "nothing could be done to help the Jewish Agency in Israel unless the Jewish Agency in Britain was able to help it." He said that "nothing could be done to help the Jewish Agency in Israel unless the Jewish Agency in Britain was able to help it."
